[2] GE Aerospace - 2025 GE_Aerospace_2025_Sustainability_Report.pdf (p.57) - score 0.69

cosystem in which they operate. We understand that protecting the confidentiality, integrity, and availability of information extends to business partners that are afforded access to such information. We contractually require our suppliers to secure and maintain their IT systems and protect our information on their systems, and perform security assessments on certain suppliers based on a risk assessment and rating pr...

[3] MOOG INC CLASS A - 2025 Moog_FY2025_Sustainability_Report.pdf (p.40) - score 0.69

er. Data privacy is managed with careful consideration of applicable regional and national regulations, reflecting the complexity of operating across multiple jurisdictions. Formal privacy policies and notices govern the collection, use, and protection of personal and confidential information and are reviewed and updated as requirements evolve. Third-party vendors and partners that access or process sensitive informa...

[4] HEXCEL - 2024 Hexcel_Sustainability_Report_2024.pdf (pp.43-44) - score 0.68

ments and surveys . 3 Conduct on-site audits to identify potential supply chain risks . 4 Support the implementation of corrective actions when risks are identified, which may include performance improvement plans with timebound targets . 5 Monitor "watch list" suppliers until their performance is restored to an acceptable level . 6 SUPPLY CHAIN SUSTAINABILITY ENGAGEMENT PROCESS TRANSPARENT & ETHICAL CONDUCT 2024 SUS...

VERDICT

GE Aerospace devotes the most attention to cybersecurity & data protection (depth 0.63), though its coverage runs more narrative than numeric; the gap to the group tail (STANDARDAERO, 0.49) is real but rhetorical depth should not be mistaken for performance. Credit where due: GE Aerospace goes beyond the standard report here, publishing a standalone data supplement - over-delivery of this kind is a stronger signal than polished prose.
